Education

Ajay Kumar Garg Engineering College

Bachelor of Technology in Computer Science – 9.33

Oct 2023 – Sept 2027

Ghaziabad, Uttar Pradesh

Nehru World School

Higher Secondary (Intermediate) – 97.4%

April 2022 – March 2023

Ghaziabad, Uttar Pradesh

Nehru World School

Secondary School Certificate – 96.8%

April 2020 – March 2021

Ghaziabad, Uttar Pradesh

Relevant Coursework

- Data Structures
- Machine Learning
- Computer Networks
- Database Management
- Computer Architecture

Experience

Bharat Electronics Limited (BEL)

Software Development Intern

Jun 2026 – Jul 2026

Ghaziabad, Uttar Pradesh

- Worked on NLP techniques including Sentiment Analysis, BERT, LDA, and Retrieval-Augmented Generation (RAG).
- Developed LLM applications using Groq API and OpenAI API.
- Built RAG workflows for document retrieval, semantic search, and response generation.

PyNet Labs

Internship Trainee

July 2025 – August 2025

Ghaziabad, Uttar Pradesh

- Worked on Machine Learning workflows including EDA, preprocessing, and time series analysis.
- Learned Convolutional Neural Networks (CNN), OpenCV, and Microsoft Azure tools.

Projects

Intelligent News Analytics System | RAG, Topic Modeling, Knowledge Graphs

GitHub

- * Developed an NLP-based news intelligence system using Retrieval-Augmented Generation (RAG) for document analysis and question answering.
- * Built an end-to-end pipeline with semantic embeddings, FAISS retrieval, and Groq-powered LLM response generation.
- * Used umass and generated network cluster diagram using suitable library.

Multilingual Voice AI Tutor | Whisper, LLMs

GitHub

- * Developed a multilingual voice-based AI tutor integrating speech recognition, LLM-based response generation, and text-to-speech synthesis.
- * Implemented speech-to-text conversion using Faster-Whisper and generated context-aware responses using Groq API with Llama 3.3.
- * Added automatic language detection and multilingual voice responses using gTTS for interactive language learning.

DeepFake Image Classification using SVM | Python, Scikit-Learn, Google Colab

GitHub

- * Performed data cleaning, preprocessing, and feature extraction on Kaggle dataset.
- * Implemented SVM with RBF kernel and hyperparameter tuning.
- * Achieved 86.28% classification accuracy.
- * Enabled real-time image upload for prediction.

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript, SQL

AI/ML: Machine Learning, Deep Learning, NLP, BERT, LDA, RAG, LLMs, Generative AI

Libraries: Scikit-Learn, TensorFlow, LangChain, OpenCV, Pandas, NumPy, FAISS

Developer Tools: GitHub, VS Code, IntelliJ IDEA, Jupyter, Colab, Groq API, OpenAI API

Achievements

- Solved 300+ problems on LeetCode (Rating: 1550+).
- Solved 175+ problems on CodeChef (Rating: 1400+, 2 Star).
- Branch Topper and College Topper based on academic performance (2023–Present).
- Qualified Stage 1 of the National Talent Search Examination (2020–21).
- Awarded 100% Academic Scholarship in Classes XI and XII.
